

ACTION ALERT!

77% of parents think there are too many vaccines on the schedule or want an alternative schedule. (A. Kennedy, 2011)

Whether you vaccinate or not, work out your own schedule or are opposed to certain vaccines, Illinois legislator, Sen. Heather Steans, wants to take away parents' rights to make these decisions for their children.

URGENT IVAC OPPOSES HB4870 and SB3668

OPPOSE HB 4870 – Mandates HPV Vaccination for 6th graders.

OPPOSE SB 3668 – Removes religious exemptions for school vaccinations and physicals for K-12 and college students.

- Restricts medical exemptions to only apply to severely limited ACIP defined contraindications.
- Grants minor children ages 14+ to consent to vaccines without the power to decline or parental consent.
- Forces vaccine administrators to report to the state vaccine tracking system, ICARE.
- Eliminates protective language ensuring that a child shall not be considered neglected or abused for the sole reason that parents/guardians didn't vaccinate for religious reasons.
- Eliminates the *Mercury-Free Vaccine Act*.

IVAC SUPPORTS HR0762 and HB4769

SUPPORT HR0762 – Resolution for Congress to reinstate liability for vaccine manufacturers.

SUPPORT HB4769 – Provides parental rights in medical situations with their children to prevent children from being labeled abused or neglected by medical personnel.
